

I-Taki Maki is an Italian Alt-Indie-Duo, formed in 2012, based in Berlin since 2015. The group consists of Mimmi (vocals, drums, percussions, melodica) & strAw (vocals, guitars, harmonica). Their music features a melding of alternative rock, slowcore and post-punk influences, typified by minimal arrangement and composition, warm voices, deep emotional sound.

Their new album, "Misfit Children", is going to be released on March 23rd 2020 and the record release party will take place at the Duncker Club, one of the oldest and most popular music clubs in Berlin.

The concept album is made up of nine songs, pivoted on the theme of growing up in a unfair society and the consequences of being children of misfit adults, people who have been fighting against the worst of the storms since their lungs have taken their first breath... People who have been waiting for a new world to come for years... People who have been crying over their miseries and dancing on their own ashes... People who have been waiting for the end of time and sung their funeral song.

Their previous fourth album, "A Place to Leave" (2018) has been augmented with a book, last year. A narrative about migration and the need to open ourselves to the ever-changing realities we face in a multicultural environments. The story has been inspired by the lyrics of the album's songs. Same happened with the new record. A still unpublished narration, a dystopian story has been inspired by the songs of "Misfit Children" and will be published after the release of the record.

I-TM have been performing in some of Berlin's most important genre venues (Rosi's, Monarch, Badehaus, Duncker Club, Madame Claude, Noize Fabrik, Culture Container, Artliners, Lagari and many more also in Cologne, Dortmund, Leipzig, Bochum, Marburg, Hamburg, Lubeck, Prague, Amsterdam, Brno, Budapest, Ferrara, Rome).

"A mighty and vigorous sound that becomes sometimes sweet and dreamy but also deeply sad, at the same time. Surrealistic, introspective lyrics and a rude narration. indented and dark atmospheres, grey and foggy backgrounds, claustrophobic and troublesome spaces, huge and confusing landscapes, where women and men live between lies and truth, love need, reconciliation with themselves and with God. Unknowns fears."
